### In Site Platform provides the ability to easily and dynamically access system for:

- Active projects,

Projects

FCR.

A' 1K.F ..... AX

PCR. PRES II CONSTR

howing 1-8 of 8 items

- Assigned instructions,
- ¬ POS location, GPS validation and POS identification,
- Real-time data collection, Photos taking (reporting)
- Time in/out, Presence Validation
- Questionnaires

#### **Customized and scalable features:**

- Smartphone Application
- Multi-linguality
- Configurable entities and objects
- Issue Tracking Module
- Secured and role-based main dashboards
- Easy access to a rich set of modules and real time information based on their permissions.
- Reporting Module (Reporting in Graphical, Tabular Format, by Client Structure)
- Web Analytics
  - o Standard visitor metrics and annotations
  - o Real time data & Geolocation of users
  - o Referrers analysis
